## **INTRODUCTORY SECTION**

*The introductory section includes a transmittal letter from the County Manager, Assistant County Manager/Comptroller, and Finance Director, the GFOA Certificate of Achievement awarded for the prior year's financial report, a general government organizational chart, and a list of principal officials.*

# BOARD OF COMMISSIONERS

TWELVE EAST 4<sup>TH</sup> AVENUE, SUITE 209 • POST OFFICE BOX 946 • ROME, GEORGIA 30162  
PHONE: 706.291.5110 • FAX: 706.291.5248 • [www.floydcountyga.org](http://www.floydcountyga.org)

June 25, 2018

The Honorable Rhonda Wallace, Chair  
Members of the Floyd County Board of Commissioners  
and Citizens of Floyd County, Georgia

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year, unless an extension has been approved, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP); and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Floyd County for the fiscal year ended December 31, 2017.

This report consists of management's representations concerning the finances of Floyd County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of Floyd County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Floyd County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Mauldin & Jenkins, LLC, a firm of licensed certified public accountants, have audited the County's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended December 31, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended December 31, 2017, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

## BOARD OF COMMISSIONERS

RHONDA WALLACE, *CHAIR*      SCOTTY HANCOCK, *VICE-CHAIRMAN*  
WRIGHT BAGBY      ALLISON WATTERS      LARRY MAXEY

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

## **Profile of the Government**

Floyd County is located in the northwest portion of Georgia. It is considered the economic hub of this region. The county occupies a land area of 514 square miles and serves a population of 97,613. The County is empowered to levy a property tax on both real and personal properties located within its boundaries.

In 1917, an Act was approved by the Georgia General Assembly creating the Board of Commissioners of Floyd County. The County has been operating under a county manager form of government since 1983. Policy-making and legislative authority are vested in the Board of Commissioners consisting of five commissioners elected at-large on a partisan basis. The commissioners serve four-year staggered terms. The Board of Commissioners is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the government's manager, attorney, and auditors. The County Manager is responsible for carrying out the policies and ordinances of the County Commission, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

Floyd County provides a full range of services, including police protection; maintenance of roads and other infrastructures; court services; jail and prison; and solid waste collection. Through joint agreements with the City of Rome, fire protection, planning, building inspection, E911, emergency management, recycling, recreation, and animal welfare services are provided countywide. Floyd County also operates a water treatment system.

The annual budget serves as the foundation for Floyd County's financial planning and control. All departments of the County are required to submit requests for appropriation to the County Manager, who in turn shall submit a recommended budget for the Board of Commissioners to review by the third Wednesday in November. The Board of Commissioners may then hold a budget hearing with each department. After holding a public hearing on the proposed budget, the final budget must be adopted no later than January 31<sup>st</sup> of each year. The appropriated budget is prepared by fund and by department. Department heads may make transfers of appropriations within a department with the exception of salaries, travel, and equipment. Transfers of appropriations to salary or equipment line items or between departments, however, require the special approval of the governing board. Budget-to-actual comparisons are provided in a report for each individual governmental fund for which an appropriated annual budget has been adopted.

## **Factors Affecting Financial Conditions**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Floyd County operates. During 2017, the county's financial condition was not impacted significantly by any financial policies.

**Local Economy.** Floyd County has a slowly rebounding local economy similar to what communities all over the country are experiencing. During 2017, Floyd County saw its total tax digest remain fairly constant. Unemployment rate is down .8% to 4.8% for 2017. Sales tax collections slightly decreased in 2017 by .2% when compared to 2016.

As far as new starts and expansions are concerned, 2017 was another productive year for Floyd County. STEMCO Rome added 43,000 square feet to their facility with an investment of \$16,000,000 and the creation of 50 jobs. STEMCO Rome manufactures brake shoes and friction components. Hight Property Group and Knox Properties partnered to form the Balta Group to acquire a site formerly owned by Caterpillar. The investment in this property will be \$10,000,000 with 75 jobs being created. Balta is the largest producer of textile floor coverings in Europe. As evidenced by these expansions, Floyd County continues to have capital investments and jobs created in our community.

Floyd County, and the cities of Rome and Cave Spring, have invested in 2017, approximately \$9,500,000 in capital projects and capital equipment from funds collected through the Special Purpose Local Option Sales Tax (SPLOST). These projects range from airport improvements, jail improvements, and improvements to the County owned downtown Forum River Center, as well as projects managed by the cities of Rome and Cave Spring. In addition, some Public Works and Public Safety equipment was purchased with these funds in 2017.

**Long Term Outlook.** With hopes that the rebound in the economy will continue to occur, the reality of the matter is that a rebound has been very slow for our area. Because of this, we expect modest improvement in our local economy in the near future. We do anticipate a slight increase in the ad valorem digest for 2018. The County's diverse tax base and strong healthcare industry will still provide a measure of economic stability locally.

During 2017, Redmond Regional Medical Center received approval by the Georgia Department of Community Health to offer a new obstetrics and birthing program at the hospital. The program will invest \$21,900,000 in this community. Redmond is an affiliation of Hospital Corporations of America. With this project, it shows the continued investment in our local economy by the Healthcare Industry.

**Single Audit.** As a recipient of federal, state, and county financial assistance, Floyd County is responsible for ensuring an adequate internal control structure is in place to ensure compliance with applicable laws and regulations. This internal control structure is subject to periodic evaluation by the county's management.

Expenditures of federal awards were below the \$750,000 threshold for the year ended December 31, 2017, and, subsequently, the County was not required to have a Single Audit in accordance with Uniform Guidance.

**Risk Management.** All claims associated with workers' compensation self-insured fund are recorded in the Workers' Compensation Fund. A third-party administrator handles the processing of all workers' compensation claims. These claims totaled \$1,029,230 in 2017.

Floyd County is also self-funded for health insurance claims. Blue Cross Blue Shield of Georgia is the third party administrator for this plan. Health insurance claims in 2017 totaled \$6,106,554, which represents an increase of \$636,386 from 2016.

### **Other Information**

**Independent Audit.** Georgia Code requires an annual audit of the books of account, financial records, and transactions of all administrative departments of the county by independent certified public accountants selected by the Floyd County Board of Commissioners. This requirement has been met and the auditor's unqualified opinion has been included in this report.

**Awards.** The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the county for its comprehensive annual financial report for the fiscal year ended December 31, 2016. In order to earn a Certificate of Achievement, the County published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements. We are submitting it to GFOA to determine its eligibility for another certificate.

### **Acknowledgments**

The preparation of this comprehensive annual financial report could not have been accomplished without the dedication and contributions of the entire finance department staff, the auditors for the County and the cooperation of the various elected officials and appointed management.

In closing, we also wish to acknowledge the valuable contribution of the Board of Commissioners. Their guidance and leadership in conducting the financial affairs of Floyd County in a responsible and progressive manner is greatly appreciated.

Respectfully submitted,

## INDEPENDENT AUDITORS' REPORT

---

**To the Board of Commissioners  
of Floyd County, Georgia  
Rome, Georgia**

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Floyd County, Georgia** (the "County"), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Floyd County Health Department, which represents 43 percent and 91 percent, respectively, of the assets and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Floyd County Health Department, is based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

---

***Auditor's Responsibility (continued)***

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Floyd County, Georgia as of December 31, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and Fire Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

---

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 5 through 21), the schedule of funding progress (on page 78), the schedules of changes in the County's net pension liability and related ratios (on page 79), and the schedules of County contributions (on page 80) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Floyd County, Georgia's basic financial statements. The combining and individual fund financial statements and schedules, the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, and introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

---

*Other Information (continued)*

The combining and individual fund financial statements and schedules and schedule of expenditures of special purpose local option sales tax proceeds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2018, on our consideration of Floyd County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

*Mauldin & Jenkins, LLC*

Atlanta, Georgia  
June 25, 2018

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

*Management's Discussion and Analysis (MD&A) is a narrative introduction, overview and analysis of the basic financial statements prepared by the County's Finance Director.*

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

Within this section of the Floyd County, Georgia (County) comprehensive annual financial report, the County's management provides narrative discussion and analysis of the financial activities of the County for the fiscal year ended December 31, 2017. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosure following this section. Additional information is available in the transmittal letter, which precedes Management's Discussion and Analysis. The discussion focuses on the County's primary government and, unless otherwise noted, component units reported separately from the primary government are not included.

**Financial Highlights**

- The County's total assets exceeded its total liabilities by \$277,272,193 (net position) for the fiscal year reported. This compares to the previous year when total assets exceeded total liabilities by \$285,311,149.
- Total net position is comprised of the following:
  - (1) Net investment in capital assets of \$240,517,610 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
  - (2) Net position of \$26,656,929 is restricted by constraints imposed from outside the County such as debt covenants, grantors, laws, or regulations.
  - (3) Unrestricted net position of \$10,097,654 represents the portion available to maintain the County's continuing obligations to citizens and creditors.
- The County's governmental funds reported total ending fund balance of \$43,284,227 this year. This compares to the prior year ending fund balance of \$40,327,596 showing an increase of \$2,956,631 during the current year. Total Assets increased \$1,982,144. Cash increased \$5,110,400 compared to 2016 with \$2,424,499 of this being in the General Fund and related to the timing of tax collections. There is a decrease in taxes receivable of \$5,329,368 compared to 2016. The largest portion of this decrease is due to the fact that Public Utilities taxes were receivable at year end for 2016 compared to being paid prior to year end in 2017. Restricted Cash increased \$1,631,492 due to the difference in 2013 SPLOST collections and expenditures. Total Liabilities decreased \$546,101. Accounts payable decreased \$279,196. Accrued salaries and payroll taxes increased \$119,894. The salaries and payroll taxes accrual for 2017 included a full pay period.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$13,222,440, or 30% of total General Fund expenditures. This is a decrease of \$2,209,501 from 2016.

**Overview of the Financial Statements**

Management's Discussion and Analysis introduces the County's basic financial statements. The basic financial statements include (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The County also includes in this report additional information to supplement the basic financial statements.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

***Government-wide Financial Statements***

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the *Statement of Net Position*. This is the County-wide statement of position presenting information that includes all of the County's assets, deferred inflows and outflows of resources, and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of the County's infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the County's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Both government-wide financial statements distinguish governmental activities of the County that are principally supported by taxes and user charges from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, judicial, public safety, public works, health and welfare, culture and recreation, and economic development. Business-type activities include the water system, the Forum River Center, the airport, the recycling center and the County's interest in the joint venture with the City of Rome. The County's fiduciary activities simply hold resources temporarily for others and are not included in the government-wide statements since these assets are not available to fund County programs.

The County's financial reporting includes the funds of the County (primary government) and, additionally, organizations for which the County is accountable (component units). These component units operate independently or provide services directly to the citizens, though the County remains accountable for their activities. These component units are governed by a board of directors. These organizations, such as the County Health Department and the Development Authority of Floyd County, are reported separately from the primary government though included in the County's overall reporting entity.

The government-wide financial statements are presented on pages 22-24 of this report.

***Fund Financial Statements***

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

The County has three kinds of funds:

*Governmental funds* are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the County's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the General Fund and Fire Fund. Budgetary comparison schedules for special revenue funds and the capital project funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the County's adopted and final revised budget.

The basic governmental funds financial statements are presented on pages 25-31 of this report.

*Proprietary funds* are reported in the fund financial statements and generally report services for which the County charges customers a fee. There are two kinds of proprietary funds. These are enterprise funds and internal service funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the County organization such as the water system, the Forum River Center, the airport and the recycling center. The internal service funds provide services and charge fees to customers (i.e., other funds) within the County organization. The County's internal service funds provide the County with health insurance and workers' compensation. Because the County's internal service funds exclusively serve governmental functions, they are included within the governmental activities of the government-wide financial statements.

Proprietary fund statements and statements for discretely presented component units (reporting is similar to proprietary funds) provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail for major enterprise funds and individual component units. Individual fund information for the internal service funds and non-major enterprise funds is found in combining and individual fund statements in a later section of this report.

The basic proprietary fund financial statements are presented on pages 32-35 of this report and component unit financial statements are presented on pages 117 and 118.

*Fiduciary funds* (i.e., the agency funds) are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund County programs. Fiduciary fund financial statements report similarly to proprietary funds.

The basic fiduciary fund financial statement is presented on page 36 of this report.

***Notes to the Basic Financial Statements***

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements are on pages 37-77 of this report.

***Other Information***

Other supplementary information includes detail by fund and component unit for receivables, payables, transfers, and payments within the reporting entity. Major funds and component units are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds and the internal service funds are presented in a subsequent section of this report on pages 81-110.

The remainder of this page is intentionally left blank.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

Current and other assets in Governmental Activities had an increase of \$493,338 from the prior year. Total cash & investments increased \$5,747,166 with \$3,202,656 of this being an increase in 2013 SPLOST cash due to the timing of capital outlay. An additional increase of \$2,424,499 in the General Fund is due to the timing of public utilities tax payments prior to year end. There is a decrease in taxes receivable of \$5,329,368. As noted, public utilities taxes were paid prior to year end in 2017 versus being paid after year end in 2016.

Governmental capital assets decreased by \$8,769,432. The decrease is due to the net change in current year additions to assets of \$4,376,280 and current year additions to accumulated depreciation of \$12,408,540.

Governmental deferred outflows increased \$236,554. For 2017, the deferred outflows for pension related items increased \$250,501.

Governmental Activities total liabilities increased \$1,294,870 from 2016. The net pension liability for 2017 increased \$1,933,431. Claims payable increased \$233,018 due to an increase in Workers' Compensation claims payable. Offsetting these increases is a decrease in intergovernmental agreements of \$540,000 and an accounts payable decrease of \$281,281.

The Total Net Position for Governmental Activities decreased by approximately 3.9% during 2017.

In the Business Activities, Total Assets increased by \$1,633,306. This is due to an increase in accounts receivable, net of allowance, of \$94,438 as well as an increase in capital assets of \$885,249. Total Liabilities increased by \$469,377. Notes and bonds payable decreased \$390,214. This decrease is offset by an increase in accounts payable of \$196,420 and a new capital lease payable of \$632,275 related to the relocation of the recycling center.

The County continues to maintain a more than adequate current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for Governmental Activities is 5.1 to 1 and 1.9 to 1 for business-type activities. For the County overall, the current ratio is 4.2 to 1.

Note that approximately 88% of the governmental activities' net position is tied up in capital. The County uses these capital assets to provide services to its citizens. Also, with business-type activities, the County has spent approximately 79% of its net position on capital. Capital assets in the business-type activities provide water services, operate the Forum River Center, a regional airport, and a recycling center. Eighty-seven percent of the County's total net position is included in capital assets.

The remainder of this page is intentionally left blank.

## **Financial Analysis of the County's Funds**

### ***Governmental funds***

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements.

The General Fund is the County's primary operating fund and the largest source of day-to-day service delivery. The General Fund reported an ending fund balance of \$18,207,208. Of this year-end total, \$13,222,440 is unassigned, indicating availability for continuing County service requirements. Restricted fund balances include: \$398,516 for the jail surcharge which is set aside for expenditures for public safety needs as required by the State of Georgia statutes; \$621,329 for the Metro Task Force; \$6,363 for supplemental juvenile services; \$140,605 for probation drug funds; and \$648,343 for law enforcement activities. Nonspendable fund balances include: \$417,607 for prepaid items and \$219,670 set aside for inventory.

The General Fund expenditures increased \$734,123 in 2017 from the previous year.

1. The General Government category decreased \$117,800 during 2017. The County Manager's office had an increase of almost \$67,000 due to the Fleet Management position being filled for all of 2017, having been filled in late 2016. County Clerk increased \$48,770. An Assistant County Clerk was hired midyear and the department was fully staffed for half the year versus not fully staffed in 2016. Purchasing reflects a decrease of \$48,290. During 2016, a payout was made to a retiring employee. Board of Registrars reflects an increase of \$80,110. However, Board of Registrars and Registrars & Elections were combined in 2017. Comparing the total costs for 2016 to 2017, there was a decrease of \$153,105 due to there being a Presidential election in 2016.
2. The Judicial category increased \$280,860. Superior Court-Office of Receiver increased almost \$20,000 largely due to an increase in health insurance costs. Superior Court-Judge Colston decreased \$18,750. This is due to decreases in salaries & wages and health insurance. Midyear of 2017, an adult felony drug court was created and an employee in Judge Colston's office became the coordinator of that court. Mental Health Court increased \$86,100. This is due to the addition of an employee at midyear and increased expenditures for the year. All expenditures of this court are covered by grant funds and probation drug funds. Clerk of Superior Court increased almost \$10,800 over 2016 due to increases in supplies and data processing. District Attorney increased a little over \$14,000 due to an increase in salaries & wages of \$27,000 offset by a decrease in health insurance. Victim Witness expenditures increased almost \$30,000 due to the addition of a victim advocate. The salary for this employee is offset by a grant covering the employee's salary. Public Defender increased almost \$40,000. Part of this increase is due to the replacement of an investigator position that was open for most of 2016. There was also an increase of \$20,300 in the state public defender contract for 2017. Magistrate Court increased a little over \$11,000 due to increased salaries & wages. Juvenile Court increased almost \$30,000 with a third of this increase being in salaries and wages. Adult felony drug court is a new court created midyear 2017. The expenditures for 2017 were \$62,300. All of these expenditures are covered by a grant.
3. The Public Safety category increased \$540,300 compared to 2016. County Police salaries & wages are \$49,000 more than 2016 due to filling open positions, salary increases and further implementation of

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

the public safety pay plan increase. The Sheriff's Office and Jail were combined into one line item for 2017. Compared to 2016, there is an increase of \$170,500 for total operations. Salaries & wages increased \$315,000 compared to 2016. Open positions were filled as well as adding positions. Also included in the salaries & wages increase is annual salary increases and further implementation of the public safety pay plan increase. The Sheriff's Office health insurance costs decreased \$171,300 in 2017 offsetting the salaries & wages increase. Repair & maintenance costs also increased \$35,850 during 2017. Inmate Medical costs increased \$150,000 compared to 2016. County Prison expenditures are \$93,200 more than 2016. Salaries & wages increased \$115,150. The County Prison filled vacant positions and added new positions during 2017. Also included in the increase in expenditures is a salary increase approved by the Board of Commissioners for all employees. Offsetting this increase are decreases in equipment purchases and utilities.

4. Health and Welfare increased by almost \$11,000 during 2017. This increase is due to an increase in pauper burial expenditures.
5. Housing and Development increased \$21,250 due to an increase in payments to the planning commission for increased salaries & benefits.
6. Transfers Out increased \$735,000. The transfer to the Work Release Center increased almost \$147,000 due to a change in operations at the center and a decrease in the number of inmates. Transfer to Capital Projects increased \$374,000 due to an increase in capital purchases during 2017. The transfer to Animal Control increased almost \$43,000 to cover operating expenditures at the new facility. Transfers to Workers' Compensation increased \$168,200.

The General Fund revenues decreased by \$1,396,330 and its transfers in increased by \$41,320 in 2017.

These changes are due primarily to the following:

1. Taxes category decreased by nearly \$1,614,000. Current year property taxes decreased a little more than \$222,000 due to a slight decrease in the collection rate for 2017. There is also a decrease in the collection of prior years' taxes of \$1,297,920. The collection of prior years' taxes during 2016 was higher than normal. Local option sales tax decreased \$12,000 compared to 2016. Recording intangible taxes increased almost \$28,000 in 2017. During 2017, Motor vehicle taxes declined \$172,000 while Motor vehicle TAVT collections increased \$225,000. The County also saw a decrease in penalties & interest revenue of \$223,300 related to a 2016 change in the law that decreased the interest rate for late payments.
2. Intergovernmental revenue increased a little over \$310,000. A large portion of this, \$300,000, is due to a change in reporting of grant revenues that previously were reported in miscellaneous revenues as well as new grant funding for the Mental Health Court and Adult Felony Drug Court.
3. Charges for services increased a little over \$674,000 compared to 2016. Sheriff-boarding inmates revenue increased \$198,000 during 2017. A change in housing inmates from a neighboring county was implemented in the last quarter of 2016. This is the main source of increased revenue for boarding inmates in 2017. Tax Commissioner commissions increased \$330,000 during 2017. There are also additional revenues related to inmate labor contracts.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

4. Miscellaneous revenue decreased by \$843,970 from the prior year. As noted earlier, grant revenues previously reported in miscellaneous revenues are now reported in intergovernmental revenues. There is a net decrease for Metro Task Force of \$122,000 compared to 2016. Offsetting these decreases, telephone commissions increased \$48,000. During 2016, Floyd Medical Center paid the County \$500,000 for assistance in a bond issue. This was a one-time payment.
5. The increase in transfers in compared to 2016 is due to an increase in the transfer from the Insurance Fund of \$12,300 for the retiree insurance costs moved from the Insurance Fund to the General Fund in 2017. There is also an increase of \$28,000 from the Jail Inmate Benefit Fund to cover the salary and benefits of an employee per a memorandum of understanding with the Sheriff's Office specific to this employee.

The Fire Fund is the County's joint funding to provide fire services with the City of Rome and the City of Cave Spring. The Fire Fund's ending fund balance for 2017 is \$3,055,491. This is a \$204,774 increase compared to 2016. Total revenues increased \$13,929 compared to 2016 and total expenditures increased \$172,340. The increase in total expenditures is due to increased funding to provide fire services.

The General Capital Projects Fund provides funding for various capital items throughout the County during the year. For 2017, the General Capital Projects Fund expended \$2,861,444 to renovate a new location for a morgue; to purchase an on-demand ballot printer for the board of registrars; to provide vehicles and in car cameras for the Floyd County police department; to install new carpeting in various departments throughout the County; to provide a vehicle and paving projects for the public works department; to provide a vehicle, install a new boiler, and body cameras for the Floyd County prison; to provide mobile assessor software to the tax appraisers office; to provide the annual payment for the County's computer lease program; to fund multiple upgrades to the Richard B. Russell Airport; and to fund the first half of an upgrade to the 800 MHz Communications radio system. The net change in fund balance for 2017 is \$107,612.

In looking at other governmental funds, significant changes in net change in fund balance occurred in the 2009 and 2013 SPLOST Funds as well as the 911 Fund. The 2009 SPLOST Fund's net change in fund balance is a decrease of \$644,680. This is due to current year debt expenditures. The 2013 SPLOST Fund's net change in fund balance is an increase of \$4,204,224 due to a decrease in current year expenditures compared to 2016 and the timing of project implementations and completions. The 911 Fund's net change in fund balance is a decrease of \$188,902. There is a decrease in total revenues of \$90,670 due to a decrease in prepaid wireless and landline fees.

### ***Proprietary funds***

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status.

#### ***The Major Proprietary Fund***

The water system fund is one of the County's major proprietary funds and provides water to approximately 16,000 residential and commercial customers. The water system bond coverage of 7.0 well exceeded the required 1.1 coverage for the year ended December 31, 2017. Even though the bond coverage is well above the requirement, the number of water customers showed a slight decrease of 145. The water sales revenue decreased in 2017 by \$170,600. However, management has done a good job of managing the expenses in order to make sure the County is able to maintain an excellent bond coverage ratio.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*

The County purchases wholesale water from the City of Rome, City of Calhoun, and the City of Adairsville. The chart below outlines the rates the County will pay when purchasing water from these three cities:

*Wholesale Water Rates*  
*For Fiscal Year Ended December 31, 2017*

<b>City of Rome</b>	<b>City of Adairsville</b>	<b>City of Calhoun</b>
<b>100,000 Gallons per Day</b>	<b>No Minimum</b>	<b>600,000 Gallons per Day</b>
<u>\$1.40</u>	<u>\$1.62</u>	<u>\$1.39</u>

**Notes:**

Wholesale water purchases from the City of Rome require a minimum of 100,000 gallons per day.

Wholesale water purchases from the City of Adairsville have no minimum gallons per day.

Wholesale water purchases from the City of Calhoun require a minimum of 600,000 gallons per day.

The water system fund reported income of \$1,966,166 from operations. During 2017, there is an overall increase in net position of \$1,522,410.

*For the Year Ended December 31, 2017*

---

The Forum River Center Fund is the County's multi-purpose arena used for hosting various community events. During FY 2017, renovations on this facility continued with funding provided by the 2013 SPLOST Fund as noted below in the capital asset and debt administration section. While there were many events held here during 2017, this is expected to increase as the renovations will be completed during FY 2018. The change in net position for 2017 was \$262,264.

The Richard B. Russell Airport decreased net position by \$486,310 for FY 2017. This is a \$248,355 improvement over 2016 where the net position decreased by \$734,665. Total operating revenues increased \$276,413 offset by an increase in total operating expenses of \$37,107. Transfers out decreased \$9,272.

### **General Fund Budgetary Highlights**

The original adopted budget did anticipate a decrease in its total fund balance by \$1,239,065. The budget was subsequently revised to reflect a decrease of \$841,070. The actual total fund balance decreased \$570,209.

The 2017 General Fund budget variances are as follows:

1. The revenues were less than the final budget by \$594,373. Taxes are \$500,898 less than the revised budget with prior year property taxes being \$187,450 less than the revised budget. Motor vehicle taxes are \$132,200 less than the revised budget as well as penalties and interest revenue being \$170,225 less than the revised budget.
2. All expenditure categories were less than projected in the revised budget by a combined \$761,083. All departments met the challenge of providing services at basically the same service level but managing costs of those services provided.

### **Capital Asset and Debt Administration**

#### ***Capital assets***

The County's net investment in capital assets, for governmental and business-type activities as of December 31, 2017, was \$199,101,236 and \$41,416,374, respectively. This is a decrease of 4.1% in this net investment for governmental activities and an increase in this net investment of 1.6% for business-type activities.

Major capital asset events during the current fiscal year are as follows:

1. Work continued on the Airport Runway Extension project in the 2013 SPLOST Fund with expenditures of \$235,280 during 2017.
2. Work began on the relocation of the Rome/Floyd Recycling Center project in the 2013 SPLOST Fund with \$479,083 spent in 2017.
3. The Forum River Center Facility Upgrades project in the 2013 SPLOST fund continued with 2017 expenditures of \$801,973. This project is scheduled to complete in 2018.

**FLOYD COUNTY, GEORGIA**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2017*

---

3. The Forum River Center Facility Upgrades project in the 2013 SPLOST fund continued with 2017 expenditures of \$801,973. This project is scheduled to complete in 2018.
4. Work continued on the 2013 SPLOST Industrial Property project with grading and property purchases totaling \$1,416,675 in 2017.
5. Playgrounds approved in the 2013 SPLOST were installed with a 2017 expenditure of \$670,704.
6. The City of Rome Tennis Center Project in 2013 SPLOST received further upgrades with \$521,572 in expenditures for 2017.
7. The City of Rome Burnett Ferry Road Improvements Project in the 2013 SPLOST Fund is well underway with expenditures of \$1,573,427 in 2017.
8. Countywide Sewer Improvements in the 2013 SPLOST Fund exceeded 50% completion with \$500,000 spent in 2017.
9. The Cave Spring Historic 1848 Fannin Hall Rehabilitation project in the 2013 SPLOST Fund had \$483,283 in expenditures during 2017.
10. In the General Capital Projects Fund, \$1,237,488 was spent on paving and other public works projects.
11. Also in the General Capital Projects Fund, \$600,000 was spent towards upgrading the 800 MHz radio communications system with another \$600,000 budgeted to spend in 2018.

The following table provides a summary of the County's net investment in capital assets.

***Long-term debt***

At the end of the fiscal year, the County had total bonded debt outstanding of \$4,660,000. This total amount is supported by revenue bonds supported by water sales. The County's other long-term debt relates to an intergovernmental agreement, certificates of participation, capital leases, OPEB obligation, net pension liability, claims payable, notes payable, and compensated absences.

***Bond Ratings***

For the most recent bond issues Moody's Investor Services rated each of the below bonds and assigned the following ratings:

\$6,785,000	2010 Water Revenue Bonds	Aa3
\$7,865,000	2010 Development Authority of Floyd County and Rome-Floyd County Development Authority Revenue Bonds	Aa2
\$51,885,000	2012 Hospital Authority of Floyd County Bonds	Aa2
\$6,400,000	2014 Rome-Floyd County Development Authority Refunding Revenue Bonds – Parking Deck Project	Aa2
\$85,435,000	2016 Hospital Authority of Floyd County Bonds	Aa2

**Economic Factors and Next Year's Budgets**

Floyd County adopted its 2018 Budget on December 12, 2017. The General Fund budget for 2018 reflects revenues of \$49,284,695 and expenditures and other financing uses of \$51,817,030.

The County projected a 2.5% increase in the tax digest for 2018. During the first five months of 2018, local option sales tax collections are \$75,340, or 2.3%, more than the previous year. This increase is lower than increases seen in surrounding Counties.

The County has been able to cash flow its operations for many years without any short term borrowing. In 2018, the County anticipates being able to cash flow its operations as it has in the past. At the present time, cash flow projections show the county's cash needs will be met without any short term borrowing. Each month the financial condition of the County is reviewed by management and the County Commission.

**FLOYD COUNTY, GEORGIA**  
*Reconciliation of Total Governmental Fund Balances to  
 Net Position of Governmental Activities  
 December 31, 2017*

<b>TOTAL GOVERNMENTAL FUND BALANCES</b>	\$	43,284,227
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Cost	\$ 474,566,129	
Less accumulated depreciation	<u>(272,101,533)</u>	202,464,596
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the governmental funds.		
Property taxes		1,362,157
Internal service funds are used by management to charge the costs of workers' compensation and health insurance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.		
		1,763,338
Net OPEB obligations are not due and payable in the current period and therefore not reported in the governmental funds.		
		(3,290,147)
Net pension assets and liabilities and the related deferred outflows of resources and deferred inflows of resources are not expected to be liquidated with current available financial resources and therefore are not reported in the governmental funds.		
Deferred outflows of resources - pension related items	8,103,224	
Net pension liability	<u>(14,566,464)</u>	(6,463,240)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.		
Accrued interest	(55,583)	
Capital leases payable	(3,489,484)	
Deferred loss on refunding	223,158	
Certificate of participation	(2,777,000)	
Compensated absences	(2,965,939)	
Intergovernmental agreement payable	<u>(5,050,000)</u>	<u>(14,114,848)</u>
<b>NET POSITION OF GOVERNMENTAL ACTIVITIES</b>	<b>\$</b>	<b><u>225,006,083</u></b>

**FLOYD COUNTY, GEORGIA**

*Reconciliation of the Statement of Revenues, Expenditures, and Changes in  
Fund Balances of Governmental Funds to the Statement of Activities  
For the Year Ended December 31, 2017*

<b>NET CHANGES IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS</b>	\$	2,956,631
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p>		
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.</p>		
Depreciation expense	\$ (12,408,540)	
Capital outlay	<u>4,309,797</u>	(8,098,743)
<p>The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.</p>		
Net book value of capital assets disposed	(737,172)	
Donations of capital assets	<u>66,483</u>	(670,689)
<p>Revenues in the statement of activities that do not provide current financial resources are reported as deferred inflows of resources in the funds.</p>		
Property taxes		(555,483)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Principal retirement	270,907	
Payment on intergovernmental agreement	<u>540,000</u>	810,907
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>		
Change in compensated absences	(50,861)	
Change in net OPEB obligation	(100,549)	
Change in pension expense	(2,181,972)	
Amortization of deferred charges	(13,947)	
Change in accrued interest	<u>1,931</u>	(2,345,398)
<p>The internal service funds are used by management to charge the costs of workers' compensation and health insurance to individual funds.</p>		
		<u>(1,300,110)</u>
<b>CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES</b>	\$	<u><u>(9,202,885)</u></u>

See accompanying notes to the basic financial statements.

---

---

Floyd County, Georgia (the “County”), was incorporated in 1917. The County operates under a Commissioner-Manager form of government. The County is governed by a board of five commissioners elected by the voters of the County.

***Note 1 - Summary of Significant Accounting Policies***

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. For the year ended December 31, 2012, the County implemented GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* which incorporated into the GASB’s authoritative literature certain accounting and financial reporting guidance issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements.

The most significant of the County’s accounting policies are described below.

***1-A. Reporting Entity***

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Floyd County, this entity includes the Personnel Board, Board of Tax Assessors, Board of Elections, Water Department, and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; (2) the County is legally entitled to or can otherwise access the organization's resources; (3) the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes, or issues their debt.

The component unit columns included on the government-wide financial statements identify the financial data of the County’s discretely presented component units. They are reported separately to emphasize that they are legally separate from the County.

Brief descriptions of the discretely presented component units follow:

***Development Authority of Floyd County*** (Development Authority) – The Development Authority is a public corporation created to promote industry and trade in the County. The County Commission appoints the seven-member Development Authority Board of Directors and is obligated for a portion of the Authority’s debt. The Development Authority does not issue separate Component Unit Financial Statements.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-A. Reporting Entity (Continued)***

***Floyd County Health Department*** (Health Department) – The Health Department provides health care services and health education to residents of Floyd County. The Health Department receives financial support from Floyd County, Georgia, the State of Georgia, and the Federal Government. The County Commission appoints a majority of the Board of Directors. The Health Department issued separately audited financial statements with a fiscal year ended June 30, 2017. Copies of these financial statements may be obtained from their administrative office at:

Floyd County Health Department  
1304 Redmond Circle, Building 614  
Rome, Georgia 30164

***1-B. Basis of Presentation***

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

***Government-wide Financial Statements*** – The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the County as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government. Fiduciary activities are not included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities which are generally supported by taxes and County general revenues, from business-type activities which are generally financed in whole or in part with fees charged to external customers. The activity of the internal service funds (i.e., Health Insurance Fund and Workers' Compensation Fund) is eliminated to avoid duplicating revenues and expenses.

The statement of net position presents the financial position of the governmental and business-type activities of the County and the County's discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and for each identifiable activity of the business-type activities of the County. Direct expenses are those that are specifically associated with a function and, therefore, clearly identifiable to that particular function. The County does not allocate indirect expenses to functions in the statement of activities.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-B. Basis of Presentation (Continued)***

***Government-wide Financial Statements (continued)*** – The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services, which report fees and other charges to users of the County's services; (2) operating grants and contributions, which finance annual operating activities including restricted investment income; and (3) capital grants and contributions, which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business-type activity is self-financing or draws from the general revenues of the County.

***Fund Financial Statements*** – During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. Fund financial statements are provided for governmental, proprietary and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

***Fund Accounting*** – The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The County uses three categories of funds: governmental, proprietary, and fiduciary.

***Governmental Funds*** – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used and fund liabilities are assigned to the fund from which they will be liquidated.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**1-B. Basis of Presentation (Continued)**

The following are the major governmental funds:

**General Fund** – The General Fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the County for any purpose, provided it is expended or transferred according to the general laws of Georgia.

**Fire Fund** – This major special revenue fund is used to account for the revenues of a specific property tax levy and the subsequent payments made to the City of Rome, Georgia and City of Cave Spring, Georgia for fire departments located in Floyd County.

**2013 SPLOST Capital Projects Fund** – This major capital projects fund is used to account for the acquisition and construction of major facilities funded by special purpose local option sales tax.

**General Capital Projects Fund** – This major capital projects fund is used to account for the acquisition and construction of major capital assets funded by County operations.

**Proprietary Funds** – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The County reports the following major proprietary funds:

**Water System Fund** – This major enterprise fund is used to account for the operations of the water distribution system.

**Forum River Center Fund** – This major enterprise fund is used to account for the operations of the Floyd County convention and civic center.

**Richard B. Russell Airport Fund** – This major enterprise fund is used to account for the operations of the County's non-commercial airport facility.

**Internal Service Fund** – Internal service funds are used to account for the accumulation of resources to be used for health and workers' compensation insurance costs, as the County is partially self-insured.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-B. Basis of Presentation (Continued)***

Additionally, the County reports the following fund types:

***Fiduciary Funds*** – Fiduciary fund reporting focuses on net position. The County’s fiduciary funds are agency funds. These agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Constitutional officers use these funds to temporarily hold assets.

***1-C. Measurement Focus***

***Government-wide Financial Statements*** – The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities reports revenues and expenses.

***Fund Financial Statements*** – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statements of net position. The statements of changes in net position present increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statements of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

***1-D. Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred revenue and in the presentation of expenses versus expenditures.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-D. Basis of Accounting (Continued)***

***Revenues – Exchange Transactions*** – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, the phrase “available for exchange transactions” means expected to be received within 60 days of year-end.

***Revenues – Non-exchange Transactions*** – Non-exchange transactions in which the County receives value without directly giving equal value in return, include sales tax, property tax, grants, and donations. On an accrual basis, revenue from sales tax is recognized in the period in which the taxable sale takes place.

Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 3-C). Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days for property taxes and one year for all other revenue) before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property tax, sales tax, interest, and federal and state grants.

***Unearned Revenue*** – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied in voluntary exchange transactions.

***Expenses/Expenditures*** – On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity***

***1-E-1. Cash, Cash Equivalents and Investments***

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-1. Cash, Cash Equivalents and Investments (Continued)***

State of Georgia law authorizes the County to invest in the following types of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the government or governmental agency
- Obligations of any corporation of the government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund 1)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. obligations.

Georgia Fund 1, created by OCGA 36-83-8, is a stable asset value investment pool that follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity, and diversification while maintaining principal (\$1.00 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. The pool also adjusts the value of its investments to fair value as of year-end and the County's investment in the Georgia Fund 1 is reported at fair value. The County considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

The County's nonparticipating interest-earning investment contracts are recorded at cost. The remaining investments are recorded at fair value. Increases or decreases in fair value during the year are recognized as a component of interest income.

***1-E-2. Receivables***

All trade and property tax receivables are reported net of an allowance for uncollectibles. Unbilled water charges are accrued as receivables and revenue at December 31, 2017.

***1-E-3. Interfund Balances***

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-4. Consumable Inventories***

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the proprietary funds are expensed when consumed.

***1-E-5. Prepaid Items***

Payments made to vendors for services that will benefit periods beyond December 31, 2017, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable as this amount is not available for general appropriation.

***1-E-6. Restricted Assets***

Sinking fund resources in enterprise funds are restricted to the payment of bond principal and interest requirements as they become due.

All resources in excess of the required reserve are transferred to a separate account and are restricted to the construction of new capital facilities and other expenses as allowed by the System's bond resolutions. Any reimbursements from outside sources for these projects are restricted accordingly.

Liabilities payable from these restricted assets include accrued interest payable on revenue bonds and the current portions of revenue bonds payable.

The bond resolutions place restrictions on additional bond issues and contain certain accounting provisions.

***1-E-7. Capital Assets***

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise fund statement of net position.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)**

**1-E-7. Capital Assets (Continued)**

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their estimated acquisition values as of the date received. The County maintains a capitalization threshold of ten thousand dollars. The County's infrastructure consists of roads, bridges, water lines, detention ponds, and runways. Improvements to capital assets are capitalized.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized.

All reported capital assets are depreciated except for land, right-of-ways, detention ponds, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Infrastructure assets acquired prior to December 31, 1980, are included in the amounts reported. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings	10 – 50 years	10 – 50 years
Machinery and equipment	3 – 20 years	3 – 20 years
Improvements other than buildings	5 – 60 years	5 – 60 years
Infrastructure	5 – 60 years	5 – 60 years

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments.

**1-E-8. Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-8. Compensated Absences (Continued)***

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

***1-E-9. Accrued Liabilities and Long-term Obligations***

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements when due.

***1-E-10. Bond Premiums, Discounts and Issuance Costs***

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Issuance costs are expensed in the period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

***1-E-11. Fund Equity***

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)**

**1-E-11. Fund Equity (Continued)**

**Fund Balance** – Generally, fund balance represents the difference between the assets, liabilities, and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

*Nonspendable* – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

*Restricted* – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

*Committed* – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by passage of a resolution by the Board.

*Assigned* – Fund balances are reported as assigned when they include amounts intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The resolution passed by the Board of Commissioners establishing the County’s fund balance policy has delegated the Finance Director the authority to assign amounts to be used for specific purposes.

*Unassigned* – Fund balances are reported as unassigned as the residual classification for the County’s General Fund and includes all spendable amounts not contained in the other classifications.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County’s policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

**Net Position** – Net position represents the difference between assets, deferred outflow of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Amounts shown as net investment in capital assets are made up of capital asset costs, net of accumulated depreciation and outstanding debt used to acquire, construct, or improve the associated assets. Net position is reported as restricted when there are legal limitations or external restrictions imposed upon their use. All other net position is reported as unrestricted.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-11. Fund Equity (Continued)***

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

***1-E-12. Operating Revenues and Expenses and Non-operating Items***

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water, the Forum River Center, recycling, airport services and rental fees, health insurance, and the workers' compensation programs. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

***1-E-13. Contributions of Capital***

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

***1-E-14. Interfund Activity***

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are eliminated.

***1-E-15. Estimates***

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-16. Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The County has one item that qualifies for reporting in this category which is the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance or net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has several types of items that qualify for reporting in this category. One of these items arises only under a modified accrual basis of accounting and, accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The governmental funds balance sheet and the government wide statement of net position will report deferred inflows of resources for unearned revenues. The County reports unearned intergovernmental revenues from transactions in which resources have been received before time requirements are met. The third item, which is reported at the government-wide statement of net position, is the fair value of the County's derivative. As the change in fair value occurs each year, the asset and deferred inflow are adjusted until the contract matures in 2028.

The County also has deferred inflows and outflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the County's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period. Additionally, any contributions made by the County to the pension plan before year end but subsequent to the measurement date of the County's net pension liability are reported as deferred outflows of resources. These contributions will reduce the County's net pension liability in the next fiscal period.

***Note 1 - Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Deferred Outflows and Inflows of Resources, Liabilities, and Fund Equity (Continued)***

***1-E-17. Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Floyd County Defined Benefit Retirement Plan and the Rome-Floyd County Recreation Authority Retirement Plan (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*For the Year Ended December 31, 2017*

---

***Note 2 - Stewardship, Compliance and Accountability***

***2-A. Budgetary Information***

The County adopts an annual operating budget for the General Fund, each Special Revenue Fund, the Debt Service Fund, and each Capital Projects Fund. The budget resolution reflects the total of each department's appropriation in each fund.

The General Fund budget is adopted on a basis consistent with GAAP. Budgets for the Special Revenue Funds, the Debt Service Fund, and for the Capital Projects Funds are adopted on a basis consistent with GAAP.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. Any change in total to a fund or departmental appropriation within a fund requires approval of the Board of Commissioners.

Either the County Manager or Assistant County Manager/Comptroller may approve budget transfers within departments, except those related to personnel or capital expenditures. The Board of Commissioners must approve transfers of personnel or capital appropriations. During the year, the Board of Commissioners approved budget revisions. All unexpended annual appropriations lapse at year-end.

***2-B. Deficit Fund Equity***

As of December 31, 2017, the following fund reported a deficit in its ending net position:

Workers' Compensation Fund	\$813,767
----------------------------	-----------

This deficit will be alleviated by increased user charges and General Fund appropriations, as necessary.

***Note 3 - Detailed Notes on All Funds***

***3-A. Deposits and Investments***

***3-A-1. Credit Risk***

The County does not have a formal policy to address credit risk aside from adherence to State statutes for investments. State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker's acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. As of December 31, 2017, the County's investment in Georgia Fund 1 was rated AAAs by Standard & Poor's.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-A. Deposits and Investments (Continued)**

**3-A-1. Credit Risk (Continued)**

At December 31, 2017, the County had the following investments:

<u>Investment</u>	<u>Maturities</u>	<u>Balance</u>
Guaranteed Investment Contract	June 1, 2028	\$ 2,679,966
Georgia Fund 1	9 days	<u>26,573</u>
Total		<u>\$ 2,706,539</u>
Reconciliation of Investments per Financial Statements		
Investments, restricted		\$ 2,679,966
Georgia Fund 1 (included with cash and cash equivalents)		<u>26,573</u>
Total		<u>\$ 2,706,539</u>

The County's investment practices have been to invest available funds locally mainly through money market accounts or through the State's investment pool (Georgia Fund 1). The guaranteed investment contract represents funds invested through the Georgia Municipal Association's lease purchase pool program of which the County is a participant.

**3-A-2. Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates, the County's investment policy limits at least half of the County's investment portfolio to maturities of less than one year.

**3-A-3. Custodial Credit Risk – Deposits**

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2017, the County was fully collateralized under the State statutes.

**3-A-4. Custodial Credit Risk – Investments**

As an external investment pool, Georgia Fund 1 is not required to disclose custodial credit risk. The Guaranteed Investment Contracts are not exposed to custodial credit risk because they are direct contractual investments and are not securities.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 3 - Detailed Notes on All Funds (Continued)***

***3-A. Deposits and Investments (Continued)***

***3-A-5. Fair Value Measurements***

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

As of December 31, 2017, the County did not have any recurring fair value measurements. The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the County does not disclose the investment in the Georgia Fund 1 within the fair value hierarchy. The County's interest rate swap agreement is classified as an other asset in the statement of net position and is more fully described in Note 3-H. The Guaranteed Investment Contract is a nonparticipating interest-earning investment contract and, accordingly, is recorded at cost.

***3-B. Receivables***

Receivables at December 31, 2017, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants. Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

The County has \$28,900 in forgivable loans receivable. These loans are recorded in the following nonmajor governmental fund: CHIP Grant Fund. Amounts represent loans to individuals in conjunction with the rehabilitation of private property and down-payment assistance. Provided the terms of the loans are not violated, these loans will be forgiven at the end of the loan term. As the likelihood of violation of the loan terms, and thus cash repayment is remote, the County has elected to record an allowance for the total outstanding balance of the loans.

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-C. Property Taxes**

The Board of Commissioners levies property taxes by or about July 25th of each year. Property taxes attach as an enforceable lien on property as of February 16th. Property taxes are billed on or about August 10th of each year and are due and payable on or about November 15th. The County bills and collects its own property taxes and also collects property taxes for the Floyd County Board of Education, the City of Rome, and the State of Georgia. Collection of the County's taxes, and for the other government agencies, is the responsibility of the Tax Commissioner's Office, which is accounted for in an Agency Fund. County property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables (i.e., collectible in 60 days). For 2017, property taxes were levied July 25, 2017, and were due November 15, 2017.

**3-D. Capital Assets**

Capital asset activity for the year ended December 31, 2017, was as follows:

<b>Governmental activities:</b>	Balance 12/31/16	Additions	Deductions	Transfers	Balance 12/31/17
Capital assets not being depreciated:

**3-E. Interfund Balances and Transfers**

Interfund balances at December 31, 2017, consisted of amounts representing charges for services or reimbursable expenditures. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-E. Interfund Balances and Transfers (Continued)**

Transfers are used to report revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed. All County transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

**3-F. Capital Leases**

During the 2008 fiscal year, the County entered into a capital lease agreement with the Rome-Floyd Development Authority (RFDA) for the financing of the construction of the Forum Parking Deck in the amount of \$3,940,000 for 25 years at 4.5% to 5%. In December of 2014, the RFDA refunded a portion of the original tax-exempt bonds underlying the capital lease transaction and thus the County's capital lease was refinanced to reflect the partial refunding. In accordance with GASB Statement No. 62, the County has adjusted the lease obligation to the present value of the future minimum lease payments under the revised lease and recorded the resulting loss as a deferred outflow of resources which has a balance of \$223,158 as of December 31, 2017. This deferred charge will be amortized using the straight-line method as a component of interest expense.

The County also has entered into a capital lease agreement with the RFDA for the financing of the construction of the Georgia Northwestern Technical College Avionics building in the amount of \$1,280,000 for 12 years at 3.84%. This debt is paid by the Debt Service Fund.

During 2017, the County entered into a non-cancellable capital lease agreement to lease a warehouse for the purpose of operations of the County's recycling center in the amount of \$653,410 for 20 years at 2.00%.

These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The following is an analysis of leased assets under capital leases as of December 31, 2017, and the amortization of these assets which is included in the depreciation expense allocated amongst the functions on the statement of activities:

Historical Cost of Buildings	\$ 7,050,367
Less Accumulated Depreciation	(1,269,135)
Net Book Value	<u>\$ 5,781,232</u>

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-F. Capital Leases (Continued)**

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2017, were as follows:

Year Ending December 31,	Governmental Activities	Business -type Activities
2018	\$ 395,895	\$ 39,600
2019	396,570	39,600
2020	264,115	39,600
2021	263,090	39,600
2022	262,765	39,600
2023-2027	1,323,886	198,000
2028-2032	1,324,000	198,000
2033-2037	265,200	168,300
Total minimum lease payments	4,495,521	762,300
Less: Amount representing interest	1,006,037	130,025
Present value of minimum lease payments	<u>\$ 3,489,484</u>	<u>\$ 632,275</u>

**3-G. Compensated Absences**

Employees earn annual leave at the rate of 6 days per year for the first year of service up to a maximum of 16 days per year after fifteen years of service. There is no requirement that annual leave be taken annually, but the maximum permissible accumulation is 60 days. At termination, employees are paid for any accumulated annual leave. Employees earn sick leave at the rate of 12 days per year. There is no maximum accumulation. At termination, employees with ten or more years of service and employed prior to January 1, 1983, are paid for all sick leave accumulated at January 1, 1983, or the amount at termination, whichever is less. Persons employed after January 1, 1983, and before April 18, 1988, with 10 or more years of service shall be paid a maximum of 90 days of unused leave at termination, with the balance credited as service for the purpose of computing retirement. Persons employed after April 17, 1988 are not entitled to any payment for accrued but unused sick leave at termination; however, the sick leave is credited as service for those employees for the purpose of calculating retirement.

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-H. Long-term Debt**

**Primary Government Bonds** - The following is a summary of the outstanding long-term bond issues at December 31, 2017:

Year Issued	Purpose	Interest Rate (%)	Interest Dates	Issue Date	Maturity Date	Original Authorized and Issued	Retired	Outstanding 12/31/2017
2010	Water refunding issue	2.00-5.65	05/01, 11/01	06/23/10	11/1/29	\$ 6,785,000	\$ 2,125,000	\$ 4,660,000

On June 23, 2010, the County's Water System issued water revenue bonds totaling \$6,785,000 with interest rates ranging from 2.00% to 5.65% to repay the County's outstanding 1999 Water Revenue Bonds and to finance certain additions, extensions and improvements to the water system of the County of \$1,795,000 and \$4,990,000, respectively. The refunding reduced the total debt service payments by \$533,984 over the next 6 years and resulted in an economic gain of \$500,309. The 1999 Revenue Bonds were called for redemption on June 24, 2010.

**Notes Payable** - In 2006 and 2007, the County incurred debt totaling \$1,339,704 through the Georgia Environmental Finance Authority (GEFA) for construction of various water system projects. The interest rate is 4.2% per annum, and repayment of principal and interest of \$10,044 is due monthly.

On January 6, 2014, the County entered into a loan agreement with GEFA to borrow funds for a water system project consisting of well rehabilitation, treatment plant improvements, and interconnection with a neighboring system. Project activities were completed in 2015 and the total loan balance of \$2,931,405 was finalized and the County commenced repayment in July 2015. The loan bears interest at 1.93% and is payable in 180 equal monthly installments of \$18,770 until maturity on June 1, 2030.

In 2017, the County incurred debt totaling \$209,568 through GEFA to borrow funds for construction of various water system projects. As of December 31, 2017, the loan has a balance of \$209,568 and is still in the draw down phase, therefore, a future payment schedule has not been established.

*For the Year Ended December 31, 2017*

---

---

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-H. Long-term Debt (Continued)**

**Certificates of Participation** – In June 1998, the County entered into a lease pool agreement with the Georgia Municipal Association (the "Association"). The funding of the lease pool was provided by the issuance of \$150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating municipalities with the County's participation totaling \$2,777,000. The lease pool agreement with the Association provides that the County owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The County draws from the investment to lease equipment from the Association. The lease pool agreement requires the County to make lease payments back into its investment account to fund the principal and interest requirements of the 1998 GMA Certificates of Participation.

As part of the issuance of the certificates of participation, the County entered into an interest rate swap agreement. Under the Swap Agreement, the County is required to pay (i) a semiannual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the County a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (ii) a one-time Swap Premium to be paid on the effective date of the Swap Agreement. The semiannual payments from the Swap Counterparty with respect to the County are structured, and expected, to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the County, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the County's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the County would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the County executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa3 by Moody's. At December 31, 2017, the floating rate being paid by the County is 2.02% and the market value of this agreement is \$675,159, a decrease of \$48,878 from the market value at the end of the previous fiscal year. The market value of the hedge was determined using settlement prices at the end of the day on December 31, 2017, based on the derivative contract. This market value is reported with other assets in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until fiscal year end) is deferred and reported as a deferred inflow of resources in the statement of net position.

For governmental activities, the OPEB obligation, capital leases, net pension liability, and compensated absences are generally liquidated by the General Fund.

For business-type activities, principal and interest payments related to the County's Water System Fund revenue bonds are financed from income derived from the operation of the Water System. Compensated absences are liquidated by the fund from which the employees' salaries are paid. Capital leases are liquidated by the Recycling Fund.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-H. Long-term Debt (Continued)**

**Revenue Bonds - Component Unit** – On June 3, 2010, the Development Authority of Floyd County and the Rome-Floyd County Development Authority issued Taxable Revenue Bonds, Series 2010 and Tax Exempt Revenue Bonds, Series 2010 in the amounts of \$3,245,000 and \$4,620,000, respectively, for the purposes of repaying the Taxable Revenue Bonds, Series 2004 and acquiring land for economic development. The total principal amount of \$7,865,000 is due in annual payments on June 1 beginning in 2011 and maturing on June 1, 2025. Interest is due and payable semiannually on June 1 and December 1. According to the intergovernmental agreement between the Authorities, each is responsible for an equal share of the revenue bonds.

Annual debt service requirements to maturity on the Development Authority’s revenue bonds are as follows:

Year	Principal	Interest	Total
2018	\$ 280,000	\$ 112,018	\$ 392,018
2019	292,500	98,692	391,192
2020	300,000	85,070	385,070
2021	310,000	71,250	381,250
2022	320,000	56,735	376,735
2023-2026	1,022,500	73,793	1,096,293
Total	\$ 2,525,000	\$ 497,558	\$ 3,022,558

Additionally, related to this joint project, the County has agreed to make all necessary payments to the development authorities in amounts to pay principal and interest on the bonds as they become due until such time that the land acquired for economic development can be sold and the debt retired. Thus, while the Development Authority of Floyd County only reports its share of the project debt, the County reports an intergovernmental agreement payable in the full amount of the debt outstanding as of December 31, 2017.

**Conduit Debt – Component Unit** – The Development Authority of Floyd County has issued bonds for various projects throughout Floyd County. The proceeds of the bonds were passed along to the third party for the project at the time of issuance. As of December 31, 2017, the total amount outstanding related to these bonds was \$177,774,200, as summarized below. Each of the parties noted below is responsible for all payments related to the bonds and the Development Authority of Floyd County has no obligation to repay this debt. As a result, these bonds are considered conduit debt of the Development Authority of Floyd County and are not reported as liabilities.

	Total
Georgia Power Company	\$ 63,080,000
Berry College	98,854,200
The Darlington School	15,840,000
Total	\$ 177,774,200

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-I. Pensions – ACCG Plan**

**Plan Description** – The County, as authorized by the Board of Commissioners, has established a non-contributory defined benefit pension plan, The Floyd County Defined Benefit Plan (the “Plan”), covering substantially all of the County’s employees. The County’s pension plan is administered through the Association of County Commissioners of Georgia Third Restated Defined Benefit Plan (the ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp and affiliated with the Association of County Commissioners of Georgia (ACCG). The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. Full-time employees with a date of hire prior to April 30, 2009 become participants on the January 1 following three (3) years of service (Group A). Group A is vested after five (5) years of service. Full-time employees with a date of hire on or after April 30, 2009 become participants on the January 1 following seven (7) years of service (Group B). Group B is vested after ten (10) years of service. Participants become eligible to retire at age 65 with three (3) years of participation in the Plan. Upon eligibility to retire, participants are entitled to 1.00% of average annual compensation up to \$6,600 plus 2.00% of average annual compensation in excess of \$6,600 plus \$36 plus (for each year of credited service prior to January 1, 1989) 1.35% of average annual compensation up to \$10,000 plus 2.00% of average annual compensation in excess of \$10,000 plus \$36 (for each year of credited service beginning on or after January 1, 1989) all payable as a life annuity. Compensation is averaged over a five-year period prior to retirement or termination. The Plan also provides benefits in the event of death or disability. The ACCG, in its role as the Plan sponsor, has the sole authority to establish and amend the benefit provisions and the contribution rates of the County related to the Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document. The Board of Commissioners retains this authority. The ACCG Plan issues a publicly available financial report that includes financial statements and required supplementary information for the pension trust. That report may be obtained at [www.gebcorp.com](http://www.gebcorp.com) or by writing to the Association of County Commissioners of Georgia, Retirement Services, 191 Peachtree Street, NE, Atlanta, Georgia 30303 or by calling (800) 736-7166.

**Plan Membership** – As of January 1, 2017, the date of the most recent actuarial valuation, the Plan’s membership consisted of the following:

Retirees, Beneficiaries, and Disableds receiving benefits	283	
Terminated plan participants entitled to but not yet receiving benefits	365	
Active employees participating in the Plan	297	
Total number of Plan participants	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="border-top: 1px solid black; border-bottom: 3px double black;">945</td> </tr> </table>	945

*For the Year Ended December 31, 2017*

---

---

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-I. Pensions – ACCG Plan (Continued)**

**Contributions** – The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of the ACCG Plan has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the Board of Commissioners, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. No contributions are made by plan participants. For the year ended December 31, 2017, the County's contribution rate was 19.1% of annual payroll. County contributions to the Plan were \$2,451,009 for the year ended December 31, 2017.

**Net Pension Liability of the County** – The County's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2016, with update procedures performed by the actuary to roll forward to the total pension liability measured as of December 31, 2016.

**Actuarial assumptions.** The total pension liability in the January 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation.....	3.00%
Salary increases.....	5.0% - 5.5%, including inflation
Investment rate of return.....	7.50%, net of pension plan investment expense, including inflation

Mortality rates for the January 1, 2016, actuarial valuation were based on the RP-2000 Combined Healthy Mortality Table.

The actuarial assumptions used in the January 1, 2016, valuation were based on the results of an actuarial experience study as of December 31, 2014.

The long-term expected rate of return on pension plan investments was determined through a blend of using a building-block method based on 20-year benchmarks (25%) and 30-year benchmarks (25%), as well as forward-looking capital market assumptions for a moderate asset allocation (50%), as determined by UBS. Expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2017, are summarized in the table on the following page:

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-I. Pensions – ACCG Plan (Continued)**

**Net Pension Liability of the County (continued)**

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30%	6.56%
Large Cap equity	30%	10.22
International equity	15%	5.86
Other equity	20%	10.33
Real estate	5%	9.33
Total	<u>100%</u>	

\* Rates shown are net of the 3.00% assumed rate of inflation

**Discount rate** – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made based on the average County contribution made to the Plan over the prior five years. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

**Changes in the Net Pension Liability of the County** – The changes in the components of the net pension liability of the County for the year ended December 31, 2017, were as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
<b>Balances at 12/31/16</b>	\$ 63,056,968	\$ 50,423,935	\$ 12,633,033

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-I. Pensions – ACCG Plan (Continued)**

**Changes in the Net Pension Liability of the County** – The required schedule of changes in the County’s net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

**Sensitivity of the net pension liability to changes in the discount rate** – The following presents the net pension liability of the County, calculated using the discount rate of 7.5 percent, as well as what the County’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
County's net pension liability	\$ 23,375,584	\$ 14,566,464	\$ 7,218,510

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2016, and the current sharing pattern of costs between employer and employee.

**Pension Expense and Deferred Outflows of Resources Related to Pensions** – For the year ended December 31, 2017, the County recognized pension expense of \$3,875,858. At December 31, 2017, the County reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Plan contributions made subsequent to the measurement period	\$ 2,451,009
Differences between expected and actual experience	361,734
Differences resulting from changes in actuarial assumptions	2,658,929
Net difference between projected and actual earnings on pension plan investments	2,631,552
Total	\$ 8,103,224

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

**Note 3 - Detailed Notes on All Funds (Continued)**

**3-I. Pensions – ACCG Plan (Continued)**

County contributions subsequent to the measurement date of \$2,451,009 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ending December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending December 31:		
2018		\$ 2,006,579
2019		2,006,579
2020		1,574,069
2021		64,988
	Total	\$ 5,652,215

**Note 4 - Other Notes**

**4-A. Risk Management**

The County maintains third party coverage for claims arising from property and casualty claims, general liability claims, and medical claims. Settlements have not exceeded coverage for each of the past three fiscal years.

The County participates in the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Association of County Commissioners of Georgia Group Self-Insurance.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools’ agents and attorneys, to follow loss reduction procedures established by the pools, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in one of the pools being required to pay any claim of loss. The County is also to allow the pools’ agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the pools.

The fund is to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers’ compensation law of Georgia. The fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation, or defense.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 4 - Other Notes (Continued)**

**4-A. Risk Management (Continued)**

The County maintains a Workers' Compensation Self-Insurance Fund, which is an internal service fund, to account for resources used in payment of workers' compensation claims. The County has entered into a contract with a third party to administer the Workers' Compensation Program. The County maintains third party insurance coverage from a private insurance carrier for claims that exceed \$250,000 per occurrence or a \$1,000,000 aggregate, stop loss limit. The County is a member of the State of Georgia Subsequent Injury Trust Fund, which provides reimbursement to individual participants, should a claim be filed by an employee who has suffered previous injury before employment with the County. During 2017, the County was reimbursed from the Subsequent Injury Trust Fund for claims above the stop loss limit. The County accrued a liability for workers' compensation claims that were incurred prior to year-end but were not paid until the following fiscal year. For purposes of estimating the unpaid claims liability as of December 31, 2017, the County's third party administrator computed the reserve liability based on the estimated cost of each outstanding claim from claims experience of similar claims. Changes in balance in claims liabilities can be summarized as follows:

Date	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Fiscal Year Liability
2015	\$ 894,782	\$ 799,606	\$ (903,605)	\$ 790,783
2016	790,783	1,524,801	(1,732,073)	583,511
2017	583,511	1,029,230	(798,974)	813,767

**4-B. Contingent Liabilities**

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the County believes such disallowance, if any, will be immaterial.

The County is involved in a number of legal matters at December 31, 2017. In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

***Note 4 - Other Notes (Continued)***

***4-B. Contingent Liabilities (Continued)***

In June 2002, the Floyd County Hospital Authority issued \$35 million in bonded debt. The County has pledged limited taxing ability up to 7 mills, should the Hospital Authority be unable to service the debt. However, the Hospital Authority has complete responsibility for retiring the debt. Consequently, the County has not reported this debt in its financial statements due to the contingent nature of its responsibility.

In June 2003, the Floyd County Hospital Authority issued \$40 million in bonded debt. The County has pledged limited taxing ability up to 7 mills, should the Hospital Authority be unable to service the debt. However, the Hospital Authority has complete responsibility for retiring the debt. Consequently, the County has not reported this debt in its financial statements due to the contingent nature of its responsibility.

In June 2012, the Floyd County Hospital Authority issued \$51.885 million in bonded debt. The County has pledged limited taxing ability up to 7 mills, should the Hospital Authority be unable to service the debt. However, the Hospital Authority has complete responsibility for retiring the debt. Consequently, the County has not reported this debt in its financial statements due to the contingent nature of its responsibility.

In April 2016, the Floyd County Hospital Authority issued \$85.435 million in bonded debt. The County has pledged limited taxing ability up to 7 mills, should the Hospital Authority be unable to service the debt. However, the Hospital Authority has complete responsibility for retiring the debt. Consequently, the County has not reported this debt in its financial statements due to the contingent nature of its responsibility.

***4-C. Jointly Governed Organizations***

Together with the City of Rome and Floyd County, the State of Georgia has established the Sara Hightower Regional Library Board of Trustees to operate a jointly governed library system. The City and County have each appointed two representatives to the twelve-member Library Board of Trustees, and as such do not exercise any direct control over the operations or the financial management of the Library. The remainder of the Trustees is appointed in accordance with State guidelines. The State provides general oversight responsibility through its Department of Education.

Under Georgia law, the Library Board of Trustees has the authority to designate the management of the Library, to access unreserved fund balances, to control Library fiscal matters and budgets, and the ability to significantly influence operations. These duties and responsibilities along with other management functions are expressly reserved to the Board of Trustees of the Library. Based on the criteria noted, the Sara Hightower Regional Library is an independent reporting entity.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

---

**Note 4 - Other Notes (Continued)**

**4-C. Jointly Governed Organizations (Continued)**

Floyd County, Georgia and Gordon County, Georgia established a Joint Development Authority for the development and management of a sixty-four acre industrial park centrally located between each county. The six person governing board of the Joint Development Authority is composed of three representatives from each county government. Neither county exercises direct control over the Joint Development Authority, as would be exhibited by a voting majority on the Board. Additionally, the Joint Development Authority operates without the imposition of either county's will on its operations. Due to the criteria noted above, the Gordon/Floyd County Development Authority is an independent reporting entity.

Floyd County, Georgia and the City of Rome, Georgia have formed a joint commission to provide landfill facilities for citizens of Rome and Floyd County. The joint commission which governs the actions of the solid waste facility is comprised of two members appointed by the Floyd County Commission and two members appointed by the Rome Commission. Additionally, the city manager and the county manager will serve on the Joint Commission as non-voting members.

Floyd County, Georgia and the City of Rome, Georgia have responsibility for ensuring the financial viability of the solid waste facility should the obligations of the facility not be met internally. However, the facility should accumulate sufficient financial resources from services provided by the facility to function without placing a significant financial burden on either of the parties participating in the joint commission. The Solid Waste Commission reported net position of \$6,022,357 for the year ended December 31, 2017.

A complete copy of these statements can be obtained from the City of Rome Finance Department.

**4-D. Joint Ventures**

Under Georgia law, the County, in conjunction with other cities and counties in the Northwest area, is a member of the Northwest Georgia Regional Commission (NWGRC). Membership in NWGRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the NWGRC. Membership in the NWGRC includes the chief elected official of each county and municipality of the area. OCGA Section 50-8-39.1 provides that the member governments are liable for obligations of the NWGRC. During the year, the County paid \$58,999 in dues to the NWGRC. The financial requirements of the County related to the NWGRC are limited to the amount of its annual dues. Separate financial statements may be obtained from the NWGRC, Jackson Hill, Rome, GA 30161.

**FLOYD COUNTY, GEORGIA**

*For the Year Ended December 31, 2017*

**Note 4 - Other Notes (Continued)**

**4-E. Other Postemployment Benefits**

In addition to providing pension benefits, the County provides certain health care benefits for retired employees between the ages of 60 and 65 through a single-employer, defined benefit plan. Substantially all of the County's employees may become eligible for those benefits if they reach early retirement age while working for the County with a minimum of ten years of service. The County contributes approximately 70% of the cost of these benefits while the retiree contributes approximately 30%. The provision of these benefits, along with the County's obligation to contribute, is established under the authority of the Board of Commissioners through passage of a local ordinance. At December 31, 2017, there were 26 retirees eligible for the benefits. The County recognizes the pay as you go cost of retiree health care benefits as an expense as claims are incurred. For 2017, those total \$397,534.

Membership

The following schedule (derived from the most recent actuarial valuation report) reflects membership for the OPEB Health Care Plan as of January 1, 2016.

Active members	501
Retired members	26
Total	527

Contributions

The County contributed \$397,534 to the OPEB Health Care Plan in fiscal year 2017. The annual required contribution amount is determined using actuarial methods and assumptions approved by the Commission. The Commission establishes and may amend the funding policy for the OPEB Health Care Plan. The Plan does not issue a separate financial report.

2017 Schedule of Employer Cost and Contributions:	
Annual Required Contribution	\$ 496,006
Interest on OPEB Obligation	127,584
Adjustment to the ARC	(125,507)
Annual OPEB Cost	498,083
Actual Contribution	(397,534)
Increase in net OPEB obligation	100,549
Net OPEB obligation, December 31, 2016	3,189,598
Net OPEB obligation, December 31, 2017	\$ 3,290,147

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

**Note 4 - Other Notes (Continued)**

**4-E. Other Postemployment Benefits (Continued)**

Fiscal Year Ended December 31,	Annual OPEB Cost	Actual OPEB Contribution	Percentage of OPEB Cost Contributed	Net OPEB Obligation
2015	\$ 604,535	\$ 153,950	25.47%	\$ 3,149,398
2016	501,636	461,436	91.99%	3,189,598
2017	498,083	397,534	79.81%	3,290,147

OPEB Health Care Plan

As of the most recent valuation date, January 1, 2016, the funded status of the OPEB Health Care Plan was as follows:

Actuarial Value of Asset	\$ -
Actuarial Accrued Liability (AAL)	4,413,722
Unfunded Actuarial Accrued Liability (UAAL)	4,413,722
Funded Ratio	0.00%
Covered Payroll	22,804,863
Unfunded Actuarial Accrued Liability as a Percentage of Covered Payroll	19.35%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continued revision as results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

**FLOYD COUNTY, GEORGIA**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2017*

---

**Note 4 - Other Notes (Continued)**

**4-E. Other Postemployment Benefits (Continued)**

Actuarial calculations reflect a long-term perspective. Calculations are based on the plan in effect at January 1, 2016. The assumptions used in the January 1, 2016, actuarial valuation are as follows:

Cost Method	Projected Unit Credit
Amortization Method	Level Percentage of Pay, Closed
Remaining Amortization Period	30 Years
Asset Valuation Method	Market Value of Assets
Investment Rate of Return (Includes inflation at 3.00%)	4.00%
Medical Cost Trend Rates	
Pre Medicare	7.75% - 5.00%
Post Medicare	5.75% - 5.00%
Year of Ultimate Trend Rate	2022

**4-F. Hotel/Motel Lodging Tax**

The County imposes a 6% hotel/motel lodging tax for the purpose of promoting tourism as authorized in Georgia Law (O.C.G.A 48-13-51(a)(4.2)). A summary of transactions for the fiscal year ended December 31, 2017, is as follows:

Fund balance as of December 31, 2016	\$ -
Tax collections during fiscal year 2017	102,117
Disbursements during fiscal year 2017 for tourism and public affairs	<u>(102,117)</u>
Fund balance as of December 31, 2017	<u><u>\$ -</u></u>

**4-G. Tax Abatements**

For the year ended December 31, 2017, County property tax revenues were reduced by \$2,019,092 under agreements entered into by the Rome-Floyd County Development Authority. Under the agreements, taxes on both real and personal property are reduced based on incentives offered to the corporations so long as targets to create and/or retain certain numbers of jobs in the County are met.

## STATISTICAL SECTION

*This part of Floyd County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.*

### Contents

#### Financial Trends

These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

#### Debt Capacity

These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the government's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

#### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

**Note:** The County began to report accrual information when it implemented GASB Statement 34 in fiscal year 2003.

(1) - The 2012 information for the Business-type activities is restated to reflect the implementation of Governmental Accounting Standards Board Statement No. 61, *The Financial Reporting Entity: Omitbus and Amendment of GASB Statements No. 14 and No. 34*. The Richard B. Russell Airport is now reported as a proprietary fund of the County as it no longer meets the criteria to be reported as a discretely presented component unit.

(2) - The 2014 total primary government net position is restated to reflect the implementation of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*.
